3 March 1975

MEMORANDUM FOR: Deputy Chief
USSR/Eastern Europe Division
Office of Economic Research

SUBJECT : Estimated Soviet Defense Spending Data

1. The attached table is in response to your request for an estimate of Soviet defense spending for the year 1966, expressed in 1966 rubles. As I mentioned in our conversation, we have not made estimates in 1966 prices. For the closest approximation we can make we have taken the year 1966 from our most recent series (in 1970 prices) and adjusted it with a number of indexes to the original price base used in our work--1955 prices. The only exception to this process is the entry for civilian personnel, it is based on the average Soviet industrial wage for 1966.

2. Outlays for military pay are not included, at your request, but all other accounts in the OSR estimate are included. In addition, should you need it, the estimate of outlays for civil space for the year 1966 is 2.114 billion rubles, expressed in 1955 prices (our surrogate for 1966 prices). If we may be of further help, please call on me on [REDACTED]
